OBJECTIVE

Motivated MCA graduate with strong programming skills, eager to start a career in cybersecurity and network security testing. Seeking an entry-level role to apply development, scripting, and automation knowledge while learning firewall technologies and security protocols to deliver secure, scalable solutions.

INTERNSHIP

FRONTEND DEVELOPMENT INTERN (2025 – PRESENT)

Developed e-commerce frontend using React and CSS.
Built modules for product listings, cart
Integrated FakeStore API for scalability
Used Git for version control and team collaboration.

WEB DEVELOPMENT INTERN (PHP) | CODELAB SYSTEMS , MANGALORE

Developed front-end using HTML, CSS, JavaScript
Implemented backend with PHP and MySQL
Built dynamic modules and performed validations
build simple e-commerce website with HTML CSS and PHP

SKILLS

- **Programming Languages:** Java, Python, PHP, C,Python
- **Web and Android Technologies:** HTML, CSS, React.js, MERN Stack ,Bootstrap,React Native
- **Backend Development:** Node.js, Express.js, PHP
- **Databases:** MongoDB, MongoDB Atlas, MySQL, SQL
- **Development Tools:** Git, GitHub, VS Code, Visual Studio, XAMPP, LAMP Stack
- **Cloud & Deployment:** Vercel, Render, Domain Management & DNS Configuration
- **Additional Skills:** Progressive Web Apps (PWA), Website SEO Optimization

PROJECTS

- **DELIGO – FOOD DELIVERY PLATFORM**
Built the frontend of a food delivery platform using React.js, featuring a responsive UI with modern CSS styling and interactive, user-friendly navigation. Tech: PHP, MySQL, HTML, CSS, JS
- **SWITCHAT – REAL-TIME CHAT APPLICATION**
Built a real-time chat app featuring multi-user rooms and secure session management. Focused on delivering a smooth and seamless user experience. Tech: MERN Stack, Socket.io
- **PYTHON FIREWALL RULE ANALYZER & QA TEST RUNNER**
Built a Python tool to detect firewall rule conflicts, redundancies, and errors by parsing, simulating, and testing configurations, generating clear PASS/FAIL reports. Tech: json, csv, ipaddress
- **FROM PAPER TO PIXELS – ATTENDANCE ALERT SYSTEM**
A web-based solution for educational institutions to automate attendance tracking and send alerts to parents, replacing manual paper-based systems. Tech: PHP, MySQL, HTML, CSS, JS
- **GOPERDOOR – COMMUNITY WELFARE PLATFORM**
Built a cross-platform React Native mobile app and web app for bus routes, local marketplace, and community social media. Ensured a seamless, scalable, and user-friendly experience across platforms. Tech: MERN Stack & React Native

EDUCATION

- **MASTER OF COMPUTER APPLICATIONS**
Nitte University | NMAM Institute Of Technology
2024 - PRESENT CGPA: 8.83 (Pursuing)
- **BACHELOR OF COMPUTER APPLICATIONS**
Udupi College Of Professional Studies, Manipal
2021 - 2024 CGPA: 8.32

COURSE & CERTIFICATES

- **INTRODUCTION TO MONGODB** DEC-2024
NoSQL databases, CRUD operations, and aggregation frameworks.
- **DEVOPS MASTERCLASS** JAN-2025
Fundamentals of DevOps Low-code automation Career growth strategies in IT

ACHIEVEMENTS & ACTIVITIES

- **PRAJNA 2024 - WEB DESIGN COMPETITION**
Participated in the 'WEBTECHNO' event a state level fest.
